SPECIAL FORCES PROJECT LEADERSHIP

- Warning! The following ideas and beliefs belong to Bob Mahler.
- It should be noted that:
 - I used to crash parachutes for a extra \$165 a month. What a deal- only two undocumented head injuries!
 - I was once chased by an elephant who didn't find me funny.
 - I have been blown up twice but not at a Chapter dinner.
 - I tried out for Special Forces....twice, before success.
- In short, I'm a trained professional on a closed course. Do not attempt without serious consideration!
