How the Agile Coach works with other Scrum Roles

What does an Agile Coach Do? > An Example

Scenario – Select members of the DEV Team are not meeting consistently, for the Daily Scrum.

Teaching – "The purpose of meeting every day is....

Facilitating – "Allow me to facilitate the Daily Scrum to help members explain 3 questions..."

Mentoring – "What I noticed with my prior Teams was that..."

Coaching – "What does this Team want to do when this happens...?" (i.e. an open ended question, which will reveal more)

What does an Agile a Professional Coach Do?

- Takes a neutral stance of the Client's agenda
- Stays present with the Client
- Helps unfold and reveal what is happening
- Hopes he/she will eventually not be needed!
- [Agile Coach] Can distinguish between other competencies such as mentoring, teaching, etc.
- [Agile Coach] Is an outsider for the Agile/Scrum Team
